

# The Benefits of FSC® Roof Trusses

FSC® Roof Trusses are incredibly economical and efficient in multiple ways. From the initial savings found through swift installation, to the long term savings found through its design advantages, FSC® Roof Trusses are the perfect solution to many design applications. Here are just some of the many benefits to installing FSC® Roof Trusses:

- \* With modern technology and software, complicated roof and ceiling profiles are easy to design.
- \* Few limitations exist when you set out to design with these trusses.
- \* Hip and valley systems are easy to build using trusses.
- \* Trusses can be used in conjunction with a lot of on-center spacing. This optimizes material resources and efficiency.
- \* FSC® Roof Trusses have followed a chain of custody that ensures materials have been harvested from well-managed forests.

These are just some of the many benefits of FSC® Roof Trusses are available to you through Sterritt Lumber. Call one of our professionals today for more information on this economical building system!

# The Benefits of FSC® Floor Trusses

FSC® Floor Trusses are incredibly economical and efficient in several ways. Equally as important is the fact that these installations create high quality, squeak-free construction that include the added benefits of reduced framing time, less waste, and fewer callbacks. Here are some of the many benefits of constructing using FSC® Floor Trusses:

- \* The design versatility and open web spaces enabled by FSC® Floor Trusses are tremendous advantages to builders of today's complex and sophisticated homes.
- \* Floor truss installations create high quality, noise-free construction.
- \* Shrinkage, warping or twisting are minimized with floor trusses, reducing the potential for callbacks to the job site.
- \* Stiffness and strength can be designed into the floor truss, creating a more solid floor than ones built conventionally.
- \* FSC® Floor Trusses have followed a chain of custody that ensures materials have been harvested from well-managed forests.

Imagine the positive feeling you will get when you install an entire system that it is FSC® certified! That is what would occur if you invest in high quality FSC® Floor Trusses available through Sterritt Lumber!
